

Mojo Power Terms

Mojo charges an EnergyPass subscription, which gives you access to Mojo's wholesale rates and other benefits. EnergyPass payments are paid in advance on a monthly or annual basis (as applicable) and are non-refundable after cool off. The Subscription Fee Daily Charge is provided for information only, to show the EnergyPass fee prorated to a daily amount.

Depending on the meter type at your premises, Mojo Power may vary your rates, terms and conditions to match the meter type. Mojo's rates, charges and benefits may change from time to time, and they will notify you when this happens. Details of the rates and charges for this plan are listed on Mojo Power's website at www.mojopower.com.au and in your welcome pack.

If you are on a contract with another retailer, exit fees may apply. Your contract period commences from the moment you provide verbal acceptance of the offer including direct debit agreement. Your welcome pack will include contract terms & conditions, late payment fees if applicable, and a schedule of Mojo Power's fees and charges.
